STATEMENT FROM THE CLEAN ECONOMY COALITION OF WISCONSIN

The Clean Economy Coalition of Wisconsin applauds Governor Tony Evers for his visionary leadership in protecting the state's clean economy. His recent legislative vetoes of bills that would have prevented Wisconsin communities from barring the use of vehicles and appliances powered by fossil fuels are a testament of his dedication to fostering a sustainable and prosperous future for Wisconsin.

This commitment to promoting clean energy technologies not only prioritizes the wellbeing of our environment and the health of our citizens, but also takes a proactive stance in steering Wisconsin's economy towards a greener, more resilient path.

As innovative clean energy technologies and industries continue to evolve and become more accessible to Wisconsinites, our state should be working to make it easier and more equitable to adopt these new sources. This approach will help accelerate the state's transformation to a clean energy economy and achieve our decarbonization goals.

###

ABOUT THE CLEAN ECONOMY COALITION OF WISCONSIN

The Clean Economy Coalition of Wisconsin is a group of climate, energy, environmental justice and conservation organizations, businesses and allies. The Coalition leverages the combined strength of its members to enhance the quality of life for all Wisconsinites by accelerating the state's transformation to a clean energy economy. We believe that an economy-wide approach to decarbonization will take our state further, faster – with better outcomes for us all. We champion equity-first policies that create jobs for Wisconsin workers, build healthier communities and protect our natural resources. By working together, we advocate for clean energy-solutions that work for all of Wisconsin's diverse cultures, communities and geographies. Learn more at www.cleaneconomywi.com.
