**STATEMENT FROM THE CLEAN ECONOMY COALITION OF WISCONSIN**

The following statement was issued by the Clean Economy Coalition of Wisconsin regarding today's consideration of [Assembly Joint Resolution 6](#), which proposes a constitutional amendment giving oversight of federal funds to the state legislature:

“This proposed constitutional amendment would significantly change the way our state accepts federal funds, threatening or significantly delaying our ability to secure critical funds for a wide variety of needs, including funding specifically directed for clean energy efforts. These funds are imperative to helping Wisconsin communities and families be resilient in extreme weather events caused by climate change and proactive in building a better, more vibrant and equitable clean economy to pass down to future generations.

The Clean Economy Coalition of Wisconsin strongly opposes Assembly Joint Resolution 6 and encourages state legislators to vote against it in the upcoming session.”
